GStirrup

Start with your setup.

For medical practices, clinics and outpatient teams planning foot and lower-leg support for office procedures.

Example table-mounted setup. Confirm the current pad, liner and mounting configuration for your table.

Your room comes first.

Begin with your current table and stirrup extensions. Our team can help identify the details needed for a configuration review.

A useful starting point for your team.

YOUR EQUIPMENT

Table manufacturer and model
Stirrup / heel-cup extension type
Photos of the table and extensions

YOUR PLAN

Number of rooms or locations
Pad and liner questions
Quantity and delivery timing

Let's talk about your setup.
